

# Coding Samples

Context Menu (10 Minutes)

# Context Menu

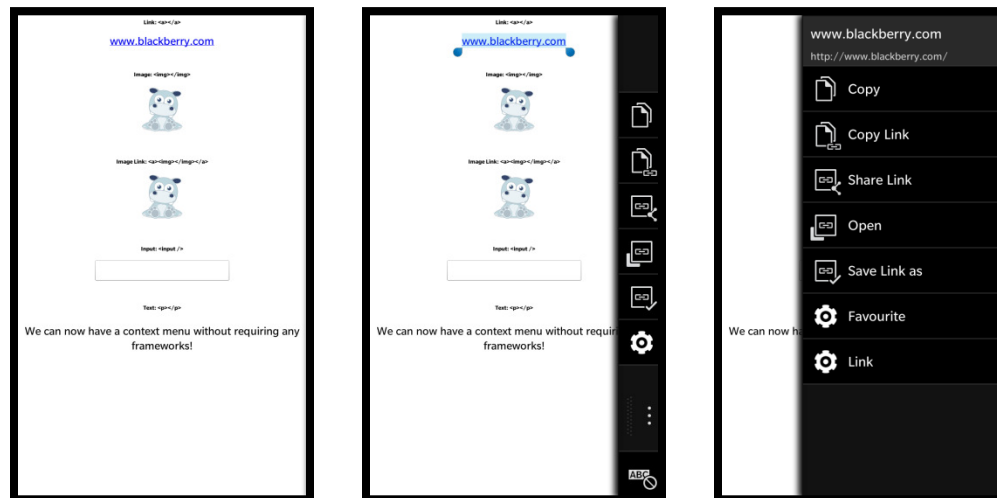

- This sample outlines how to invoke a native Context Menu for various items with WebWorks APIs.
- Source
  - ▶ <https://github.com/oros/BB10-WebWorks-Samples/tree/master/contextmenu>
- Documentation
  - ▶ <https://developer.blackberry.com/html5/apis/blackberry.ui.contextmenu.html>

# Task 1 (5 Minutes)

 **BlackBerry** Jam Americas

- Download the sample source and build it using the BlackBerry 10 WebWorks SDK. Deploy the resulting BAR file to your device and familiarize yourself with the application and implemented functionality.

## Task 2 (5 Minutes)

- In [context.js](#), modify the [initApp](#) function and an item for each remaining context menu type.
  - ▶ `CONTEXT_LINK`
  - ▶ `CONTEXT_IMAGE`
  - ▶ `CONTEXT_IMAGE_LINK`
  - ▶ `CONTEXT_INPUT`
  - ▶ `CONTEXT_TEXT`
- Use the implementation of `CONTEXT_ALL` for reference.
- See: [blackberry.ui.contextmenu](#)
